WHAT I USE

HTML | CSS | JavaScript | Tailwind CSS | GitHub | Canva

2 Skills

∞ Ideas

Hello, I'm

Nimra Abid Rao

Frontend Developer

FRONTEND DEVELOPER | GRAPHIC DESIGNER | STUDENT | FREELANCER

I create clean, responsive and beautiful websites using modern frontend technologies. I enjoy learning, designing and turning creative ideas into digital experiences.

<About Me/>

I'm a frontend developer and student who enjoys creating modern and responsive websites. I am continuously learning new skills and improving my knowledge of web development and design.

I love experimenting with new ideas and turning them into simple, useful and beautiful digital experiences.

Education MY LEARNING JOURNEY

01 Currently Learning

MERN Stack Development

Learning the MERN stack (MongoDB, Express, React and Node.js) to build full-stack web applications.

02 Learned

Graphic Designing

Learned graphic designing and explored creative ways to communicate ideas through visual design.

My Skills WHAT I USE

- **HTML** — Creating structured and semantic webpages.
- **CSS** — Designing responsive and attractive layouts.
- **JavaScript** — Adding interactivity and logic to frontend websites.
- **Tailwind CSS** — Building responsive interfaces with utility classes.
- **GitHub** — Managing and publishing web development projects.
- **Canva** — Creating creative graphics and visual designs.
